World organisations to be wary of

Countries that have a mainly Christian population and have a good understanding of Biblical prophecy will recognise that we are experiencing many of the conditions described in Mathew 24. Conditions that precede the coming of our Messiah and Saviour Jesus Christ. They will also readily recognise and know that we are living in a kingdom controlled by Satan² and which will continue as such until our Redeemer and Messiah Jesus Christ returns³ When He returns to save the world from the inevitable self-destruction that will come from a reign of rebellion against the laws of God.⁴

The angels that rebelled and fell with Satan head up principalities and powers⁵ over the earth. This is confirmed by the many domes of government buildings showing them as 72 regions / principalities.

These princes⁶ work through their offspring known as the Nephilim⁷ and their bloodlines (such as the Rockefellers and Rothschilds) to control world energy supplies (Petro Dollar), education (aimed at distracting, manipulating, changing history, hiding discoveries, dumbing down people and destroying their spiritual Holy Ghost discernment⁸), media (manipulating and controlling world-wide perceptions of pseudo reality) , food supplies, seed banks, insecticides, health (big Pharma that demonized natural diets and remedies instead of drug related treatments that cause many other side effects to be treated causing an economic model that feeds on itself), the Military Industrial Complex (that foments wars to keep the money printing going and dump nations ever deeper into debt to those at the top of that pyramid).

These are in turn served by various intelligence agencies such as CIA, FBI, MI5/6, FSB, ASIO, MOSSAD, GASAD, DARPA⁹ most of which have been highjacked by groups that have captured their abilities and have weaponized systems of justice world-wide against any persons or politicians¹⁰ that seek to expose their nefarious aims.

⁹ Full list for each nation here https://en.wikipedia.org/wiki/List_of_intelligence_agencies Australia for example has 10 different agencies. A Chief police commissioner of one of the Australian states (QLD) has said that persons should be regarded as domestic terrorists if they are (1) premillennialists that (2) distrust big governments are (3) unvaccinated, (4) research common law and (5) can be regarded as conspiracy theorists.

Currently this power has been concentrated in the west under the Fractional Reserve Banking² systems that all countries use and that make up the Bank of International Settlements that regulates the loans between the various countries which are in turn organized under the United Nations, its World Bank and International Monetary Fund.

The main corporations that have consolidated their via their majority shareholding, influence and control over all of the strategic sectors are Blackrock, Vanguard, Street Investment, and others of lesser importance. As a result they can easily generate and control corporate, political and legislative narratives.

The Machiavellian control system of crisis management expressed as *ordo ab chao* by the upper degrees of Freemasonry has been employed for millennia and has been conducted by a small group of exceedingly wealthy individuals heading up massive global corporations, banks and military Industrial complexes. They have been known as the Templars, Hospitallers, Jesuits, Zionists, Illuminati, Bilderberger group, Club of Rome, Committee of 300, Committee of 9 elders, The Davos group and currently the World Economic Forum.

[World Economic Forum¹¹](#)

This group believes in [resetting](#) the entire current world order (including fermenting drastic population reduction) via managed crises such as pandemics, climate change, the elimination of cash and introduction of digital monetary and social credit systems so as to produce a NEW Secular World Order. Their aims include monitoring and controlling people through modern technology, very high frequency (radio, radar wave and electromagnetic) exposure and even gene and DNA modification, even installing digital intelligence and the use of AI in the brain.¹² On this last issue Elon Musk has warned that AI could comprise the greatest danger to humanity ever¹³ and there is a conference on AI security right now in which many countries agree on the risks.¹⁴

They have trained and inserted political leaders in most western countries through their [Young Global Leaders Program](#)¹⁵. who boast Canada's Trudeau, Frances Macron, Germany's Merkel and many others as their successful leaders.

[World Health Organisation](#)

This organisation seeks to install an international [Pandemic prevention, preparedness and response accord](#) that will provide it the sole rights to declare a pandemic, mandate medication and lock down cities, states countries, international travel and commercial activity.

¹¹ Former US government insider and author of 'The Great Reset', Marc Morano, on Klaus Schwab's recent B20 speech: "He's talking about us essentially giving up national sovereignty, giving up individual freedoms, and turning over rule to experts... This whole agenda is to make it so we have no choice on some of the biggest questions of our lives." "We didn't get to vote on whether gas powered cars would be banned, we didn't vote for vaccine mandates, we didn't vote for lockdowns, we didn't vote for banning of meat. But all of this is happening, because at these meetings like the World Economic Forum and the United Nations, they meet and they work with government-corporate collusion to bypass democracy and impose stuff through this corporate government fascism."

mRNA technology is now been inserted into vegetable, fruit and protein food supplies with the approval of the WHO. This is without any doubt a gross violation of universal fundamental right to informed consent as set up via the Nurembourg Code following World War II.

An example of one of the training manuals used by intelligence agencies: -

Training Manual No. TM-SW7905.¹⁶

Typical of the manuals developed for this type of operation was **Training Manual No. TM-SW7905.**¹⁶ This manual is **entitled *Silent Weapons for Quiet Wars***, Therein the science of **Social Automation Technology** is succinctly set out complete with **Tables of Strategies** and a **list of Inputs and Outputs**: -

Under the **Historical Introduction** we read that **Silent Weapon Technology** evolved from **Operations Research (O.R)**, a strategic and tactical methodology developed under **Military Management** in England during WW II...It was soon recognised by the **Council on Foreign Relations** as *an effective means of controlling society*.

In the **Formal Introduction** we read the following: -

The solution to today's problems requires an approach that is ruthlessly candid, with no agonising over religious moral or cultural values”, and as such must be ‘secured from public scrutiny”.

Under the heading, **Descriptive Introduction of the Silent Weapon** we read: -

Everything that is expected from an ordinary weapon is expected from a silent weapon by its creators, but only in its own manner of junctioning

It shoots situations instead of bullets, propelled by data processing, instead of a chemical reaction, (explosion); originating from bits of data instead of grains of gunpowder, from a computer instead of a gun; operated by a computer

programmer instead of a marksman, under the orders of a banking magnate instead of a general. 4

It makes no obvious explosive noises, causes no obvious physical or mental injuries, and does not obviously interfere with anyone's daily social life.

Yet it makes an unmistakable "noise", causes unmistakable physical and mental damage, and unmistakably interferes with daily social life, i.e., unmistakable to the trained observer, one who knows what to look for.

The public cannot comprehend that they are being attacked by a weapon, and therefore cannot believe that they are being subdued by a weapon.

The public might instinctively feel that something is wrong, but because of the technical nature of the silent weapon they cannot express their feeling in a rational way, or handle the problem with intelligence. Therefore, they do not know how to cry for help, and do not know how to associate with others to defend themselves against it.

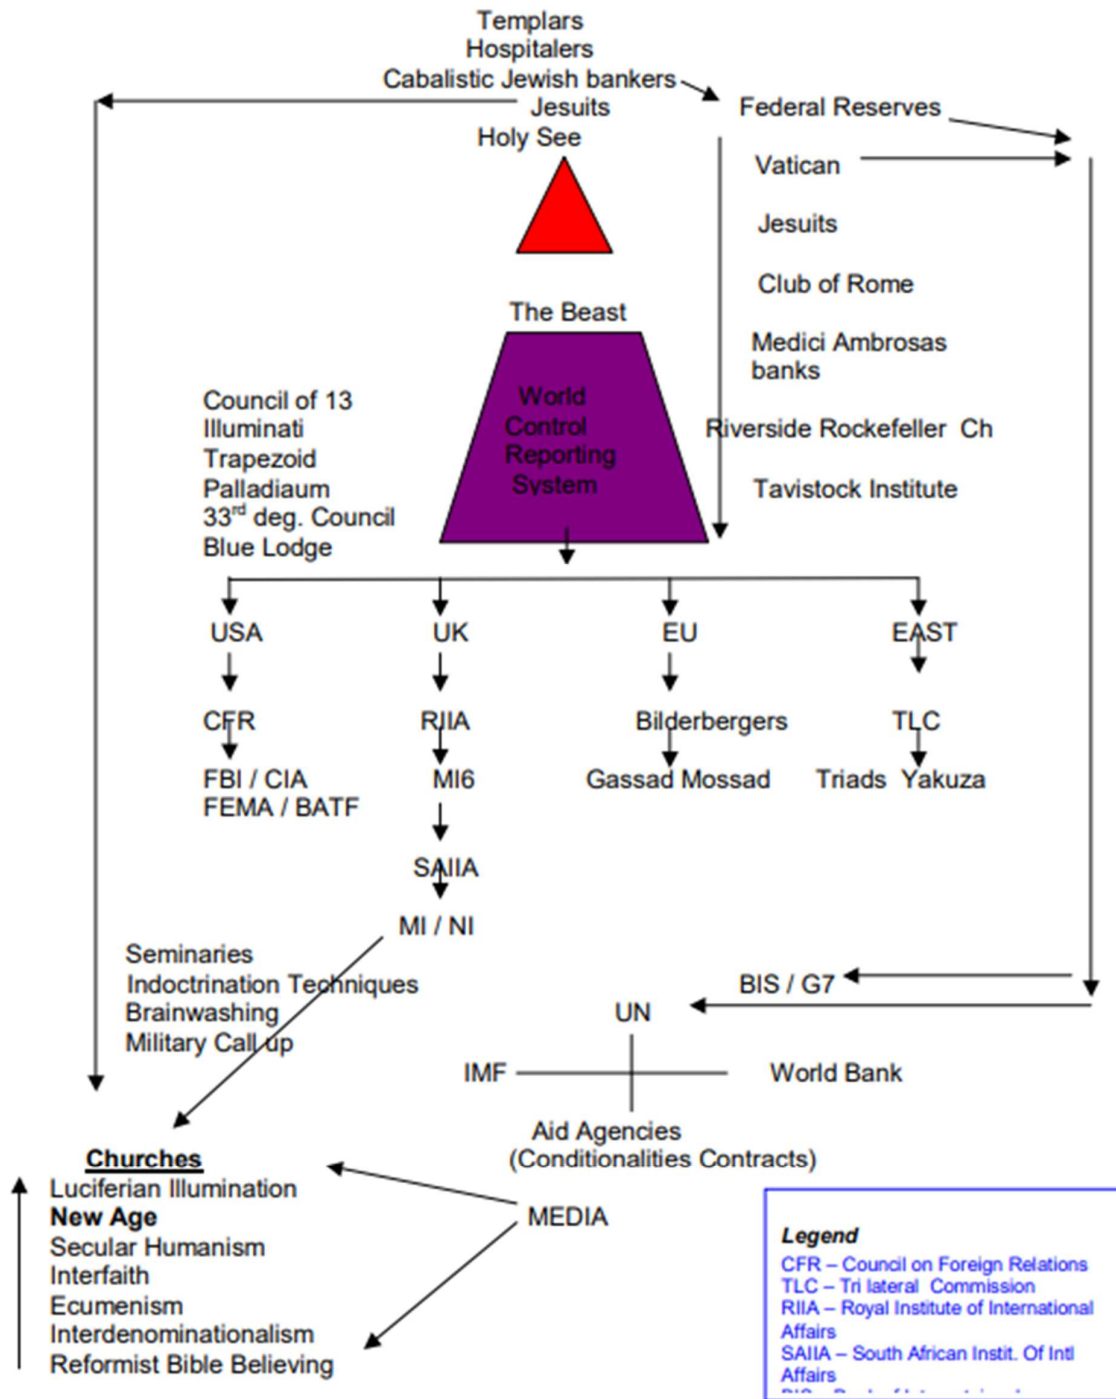

When a silent weapon is applied gradually, the public adjusts / adapts to it's presence and learns to tolerate it's encroachment on their lives.

Therefore, the silent weapon is a type of biological warfare. It attacks the vitality, options, and mobility of the individuals of society by knowing, understanding, manipulating, and attacking their resources of natural and social energy, and their physical and mental, and emotional strengths and weaknesses.

World Constitution and Parliament Association (WCPA) and Provisional World Government (PWG)¹⁷

Politicians such as Buthelezi, Tutu and some Chief justices were among the International Honorary founding sponsors of the Provisional World Government when it was still known as the World Constitution and Parliament Association (WCPA).

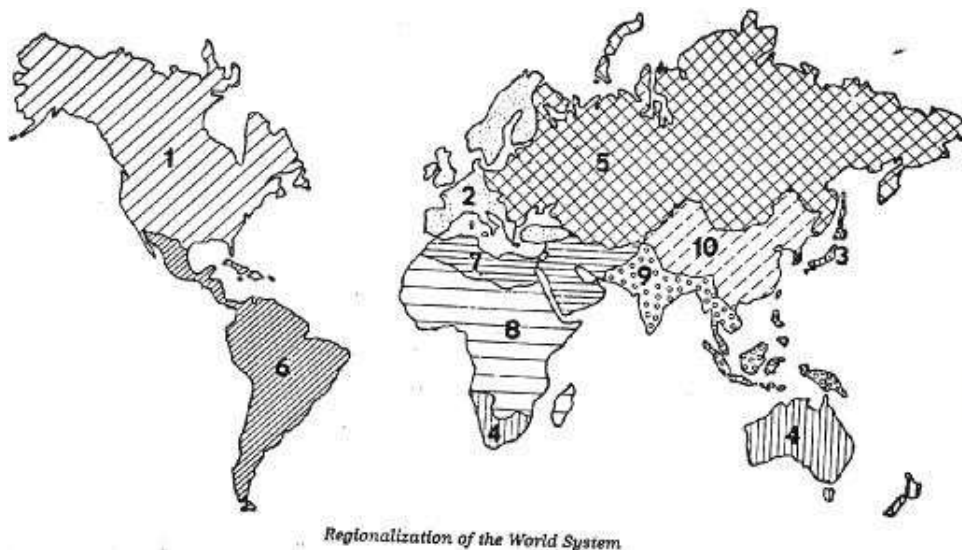

On 1 January 1995 the WCPA released its manifesto stating:

"Acting on behalf of all inhabitants of earth, we hereby take possession of all the oceans and seabeds of earth... thus comprising at least 70% of earth for the beginning of World Government."

A **"World Disarmament Agency"** was formed. Authorised lines of credit in earth Dollars were initiated at one billion dollars per million of population. In this report Phillip Isely admitted that third world countries would find it hard to go against the IMF and World Bank wishes. PWG divided the world into 10 regions exactly according to the Club of Rome's map in line with Daniel's 10 toes in his image and the 10 kings in Revelations 17. 10 Kings can be seen over the EU official ad.

In 1989 The Provisional World Government was formed subsequent to about two decades of activity by the World Constitution and Parliament Association of which Chief Minister Mangasuthu Buthelezi, Bishop Tutu, Dennis Brutus, and various other dignitaries including Chief Justices, Presidents, Kings, Dictators of every country in the world are all honorary founding sponsors. (See copy of letter overleaf.)

The PWG adopted the Club of Rome's map dividing the world into 10 regions of which the South African Development Community (SADC) is region 4, all in deadly accuracy of the prophecies of Daniel in the Old Testament and those of John's in the Book of Revelations in the New Testament of the Bible. (See map below).

Your Excellencies
Presidents, Prime Ministers, Kings, Queens, Sultans,
and other Heads of Governments of All Countries on Earth

Your Excellency and Decision Maker:

We wish to report a successful first meeting of the Preparatory Committee for the World Constituent Assembly, which is to convene at the end of 1990. We mentioned this meeting to you in our previous letters appealing for World Patriots, under dates of July 5, August 18, and September 1, 1988. The meeting was held in the Sky Garden room of the St. Moritz Hotel in New York, on 19 and 20th November, 1988.

A feature of the meeting was a special luncheon on November 19, attended by the United Nations Ambassadors or Deputy Ambassadors for twenty countries. At the luncheon, the plan for the World Constituent Assembly to convene near the end of 1990 was fully explained, and the draft of the Constitution for the Federation of Earth was given to each one present. Special emphasis was given to the problem of global climate change. A report on this first meeting of the Preparatory Committee was later sent to the Ambassadors at the United Nations of all countries, including your

In this fourth letter to Heads of Governments, appealing for action by World Patriots, we wish to give particular attention to the problem of climate change, which has been widely publicized during the past two years. Contrary to most warming predictions, however, there are very good reasons, as well as extensive scientific documentation and reports in the news, to believe that a different scenario is most likely, and therefore a different strategy required to deal with the problem.

First, we will summarize the most likely sequence of events, and then analyze the situation in greater detail:

The much reported slight increase in average global temperature means very little. Any scientist should suspect gross error when basing predictions on the averaging of extremely variable temperatures of different latitudes. Rather than a general global warming, there is already evident and documented both a warming at lower latitudes and a cooling at higher latitudes. The cooling originates from increased cloud cover because of moisture-laden air moving polewards. The sun's rays will not get down long enough to melt the ice caps. The sea levels are not likely to rise. Lowlands are not likely to get flooded. Grain growing and agricultural production cannot shift to higher latitudes because increased snow cover and shorter growing seasons will make crop failures more and more certain.
